## ABOUT ME

*I am a self-taught web developer with a passion to create things that inspire people. I have learned by taking on bigger projects than I can handle, and have the desire to learn as much as I can*

Seeking an opportunity to be challenged, and to grow as a developer. I aim to learn from experienced team members, create long-lasting relationships and contribute to meaningful projects.

## SKILLS

8 / 10

JavaScript

8 / 10

HTML

9 / 10

CSS

10 / 10

React

6 / 10

MongoDB

## EDUCATION

Bachelor of Computer Science

University of Jamestown

2018 – 2022

- Five-time Deans List Recipient
- Athletic Scholarship
- Cum. GPA 3.5

## EXPERIENCE

Healthcare Technician

*Precede Occupational Health Services*

Primary Role was to screen employees for Covid-19 for Companies such as ENMAX Energy and ATCO Energy

- Communicated with over 100 employees each day
- Documented employees screening results
- Administered Covid-19 Rapid Antigen Tests

## PROJECTS

Interactive Map of UJ's Campus

Developed new campus map for the University of Jamestown using React. Users can view a full campus map, as well as maps of inside buildings on campus. These Floor plans also contain classroom schedules, which display the classes that are being held in every classroom on campus for any day in the school week.

In-progress projects can be found on my [GitHub Profile](#)
